

Diet ID™ is the fastest way to assess diet, generate personalized nutrition plans, and guide diet improvement, resulting in significantly improved health outcomes in your population.

- ✓ Clinically validated
- ✓ HIPAA compliant
- ✓ Easy to use
- ✓ Realtime nutrient analysis
- ✓ Affordable and reimbursable
- ✓ Data-rich reports

**Designed with the modern RDN in mind, Diet ID is:**

**BUILT ON SCIENCE**

Backed by world-renowned experts, Diet ID supports validation against the FFQ, contains 100+ diets analyzed for 160+ nutrients, and utilizes the Healthy Eating Index 2015.

**PERSONALIZED**

Diet ID helps identify food patterns, preferences, and health risks. The tool gently guides habit change with goal-oriented, adaptable behavior modification tips & challenges.

**FAST AND EASY**

Diet ID is a fun, lightweight, visual approach that eliminates the need for memory or tedious food logging, accessible via any mobile device or computer.

“ To be able to get that rapid assessment has been so helpful as we onboard patients into a [lifestyle modification] program and follow them over time.”

—SPECTRUM HEALTH PROVIDER, DECEMBER 2020
